

CONTENTS

Some results of generalized k-fractional integral operator with k-Bessel function	<i>Rana Safdar ALI, Muhammed KAMRAN, Iqra NAYAB</i>	157-169
The alpha power Weibull Frechet distribution: properties and applications	<i>Joseph Thomas EGHWERIDO, Ovokaefe Trust UTOYO- AMREVUGHERE, Eferhonore EFE-EYEFIA</i>	170-185
Half inverse problems for the impulsive singular diffusion operator	<i>Rauf AMIROV and Abdullah ERGÜN</i>	186-198
An inverse coefficient problem for quasilinear pseudo-parabolic of heat conduction of Poly(methyl methacrylate) (PMMA)	<i>İrem BAĞLAN and Timur CANEL</i>	199-207
A new study on focal surface of a given surface	<i>İlim KiŞi and Günay ÖZTÜRK</i>	208-213
Continuous Dependence on Data for a Solution of determination of an unknown source of Heat Conduction of Poly(methyl methacrylate) (PMMA)	<i>İrem BAĞLAN and Timur CANEL</i>	214-219
A Note on Hopf Bifurcation and Steady State Analysis for a Predator-Prey Model	<i>İrem ÇAY</i>	220-225
Neighborhoods of Certain Classes of Analytic Functions Defined by Normalized Function $az^2J_{\vartheta}''(z) + bzJ_{\vartheta}'(z) + cJ_{\vartheta}(z)$	<i>Murat ÇAĞLAR, Erhan DENİZ and Sercan KAZIMOĞLU</i>	226-232
Weak Structures on Pythagorean Fuzzy Soft Topological Spaces	<i>Taha Yasin ÖZTÜRK</i>	233-241
On Pythagorean Fuzzy Soft Boundary	<i>Adem YOLCU</i>	242-251
Mathematical Modeling of the Effect of CO2 Laser Power on Texture Size on Polyoxmethylen (POM) Sheet	<i>Timur CANEL and İrem BAĞLAN</i>	252-256
Mathematical Modeling of the Effect of CO2 Laser Parameter on Shape and Geometry of Polymer Plate	<i>Timur CANEL and İrem BAĞLAN</i>	257-261
The Hosoya Polynomial of the Schreier Graphs of the Grigorchuk Group and the Basilica Group	<i>Bünyamin ŞAHİN and Abdulgani ŞAHİN</i>	262-267
The Signatures and Boundary Components of the Groups $\hat{\Gamma}_{0,n}(N)$	<i>Erdal ÜNLÜYOL and Aziz BÜYÜKKARAGÖZ</i>	268-279
The Pell-Fibonacci Sequence Modulo m	<i>Yeşim AKÜZÜM</i>	280-284
The Padovan- Padovan p-Sequences in Groups	<i>Yeşim AKÜZÜM</i>	285-289
New Integral Inequalities of Ostrowski Type for Quasi-Convex Functions with Applications	<i>Alper EKİNCİ, Muhamet Emin ÖZDEMİR, Erhan SET</i>	290-304
Integral Inequalities for Different Kinds of Convexity via Classical Inequalities	<i>Muhamet Emin ÖZDEMİR, Alper EKİNCİ and Ahmet Ocak AKDEMİR</i>	305-313
