

CONTENTS

Near Soft Topological Groups Based on Near Soft Element	<i>Hatice TAŞBOZAN</i>	53-57
On the modified orthogonal frames of the non-unit speed curves in Euclidean 3-Space E^3	<i>Sümeyye GÜR MAZLUM and Mehmet BEKTAŞ</i>	58-74
Tubular Hypersurfaces According to Extended Darboux Frame Field of First Kind in E^4	<i>Mustafa ALTIN and Ahmet KAZAN</i>	75-84
A New Generalization of Szasz-Kantorovich Operators on Weighted Space	<i>Harun ÇİÇEK, Shaymaa Jameel ZAINALABDIN and Aydın İZGİ</i>	85-106
On the Stability of Finite Difference Scheme for the Schrödinger Equation Including Momentum Operator	<i>Nigar YILDIRIM AKSOY and Emel SARIAHMET</i>	107-115
Some Characterizations of PS-Statistical Manifolds	<i>Sema KAZAN</i>	116-131
On the challenge of identifying space dependent coefficient in space-time fractional diffusion equations by fractional scaling transformations method	<i>Mine Aylin BAYRAK and Ali DEMİR</i>	132-145
